

To gain full SEIRS qualification installers must successfully pass the Foundation and Diploma courses which address not only the theory of installing storage equipment, but significantly includes a practical, hands-on instructional element.

Foundation Course Part 1

- **Course Duration**
One-day classroom based course and practical use of safety harness.
- **Course Content**
Covers Health & Safety issues both generic and industry specific that are likely to affect installers on site while installing pallet racking storage equipment.
- **Pre-qualifications**
None unless an installer requires a SEIRS CSCS card in which case they will need to pass the CITB Health, Safety & Environment Test.
- **Qualification**
On successful completion of the course delegates are awarded a SEIRS Trainee card which is valid for 6 months. To complete your SEIRS qualification, delegates will need to undertake the SEIRS Diploma Part 2.

SEIRS Diploma Part 2

- **Course Duration**
Two-day intensive course which is delivered through a mixture of classroom-based theory and a significant practical element.
- **Course Content**
Covers information and knowledge of safety procedures and legislation involved in the construction of pallet racking storage equipment.
- **Pre-qualifications**
Yes. Successfully complete Part 1 of the SEIRS Foundation course, and either a MEWPS 3A and 3B qualification or CITB Health Safety and Environment test.
- **Qualification**
Delegates will be assessed throughout day two of the course and on successful completion of the assessment will be awarded a full SEIRS card which is valid for 5 years.

SEIRS General Refresher Course

This one-day General Refresher course is a classroom-based course for holders of the SEIRS Diploma card. Installers should complete this course before their SEIRS card expires.

- **Course Duration**
One-day classroom based course and practical use of safety harness.
- **Course Content**
Refresher course for holders of an in-date SEIRS Diploma card. The course will update their skills and knowledge with the latest safety procedures and legislation in the construction of pallet racking storage equipment to enable them to work safely on site.
- **Pre-qualifications**
Yes. Successful completion of the SEIRS Diploma course.

SEIRS Supervisors Course

- **Course Duration**
One-day classroom based course and practical use of safety harness.
- **Course Content**
Covers safety procedures and legislation involved in the construction of Pallet Racking storage equipment to enable delegates to work safely on sites and supervise small to medium sized installation teams. Pass rate for the end of course test is 80%.
- **Pre-qualifications**
Yes. Successful completion of the SEIRS Diploma course.

SEIRS Installation Managers Course

- **Course Duration**
A one-day classroom based course and practical use of safety harness.
- **Course Content**
Covers all relevant legislation and other aspects which affect safe working whilst installing pallet racking storage equipment. Highlights the need for risk assessments and method statements within the working environment, the implementation of necessary control measures, and adequate communication to sustain a health and safety culture among the workforce. Pass rate for the end of course test is 80%.
- **Pre-qualifications**
Yes. Successful completion of the CITB Health Safety and Environment Test for Managers & Professionals (MAPS).
